We are also required to take appropriate steps to identify the source of your personal wealth and of any funds that you wish to invest.

9 Treating customers fairly

Vision is committed to observing the highest standards of ethical behaviour and approach to treating its customers fairly. As such it expects its Advisers and Appointed Representatives to abide by Vision's Code of Ethics and Treating Customers Fairly procedures. Further details on these are available upon request.

Our commitment to you

We will:

- ▶ Provide you with clear information about the products and services that we offer, including fees and charges.
- ▶ Ascertain your individual needs, preferences and circumstances before providing advice to you.
- ▶ Only provide advice that we consider suitable for you and that you can afford – and always the most suitable from the available options.
- ▶ Not recommend a product if we can't find one that we consider suitable.
- ▶ Encourage you to ask if there's something you don't understand.
- ▶ Give you access to a formal complaints procedure should you become unhappy with our service.
- ▶ Transact your business in order to achieve the best possible results for you in relation to

the nature and price of the products selected and recommended, charges, administration and service excellence.

How you can help us

To help us give you the most appropriate advice, we will ask you to:

- ▶ Tell us as much as possible about your personal and financial situation, including income and outgoings, to enable us to properly assess your situation and make appropriate recommendations to you.
- ▶  If you do not wish to, or are unable to disclose full information, we may be unable to advise you.
- ▶ Let us know about changes that might affect your ability to fund any recommendation that we make.
- ▶ Let us know if there is any aspect of our service, or of a product we have discussed or recommended, that you don't understand.
- ▶ Tell us if you think there are ways that we can improve our service.

10 Our initial services

We offer a bespoke advice and intermediation service to help you plan for your financial needs and objectives.

Initial discussion

We offer an initial discussion entirely at our expense during which we shall describe our services more fully.

Not all firms charge for advice in the same way. We will discuss your payment options with you and answer any questions you have. We will not charge you anything until you have agreed how we get paid.

Your Information

We will meet with you to gain a detailed understanding of your personal and financial circumstances and help you to articulate your needs and objectives. This will be recorded in our Confidential Financial Review Form.

Your restrictions

We will identify any restrictions you wish to place on the type of financial products you are willing to consider. Unless confirmed in writing to the contrary or detailed in the Confidential Financial Review Form we will assume that you do not wish to place any restrictions on the advice we give you.

Research and analysis

Having gathered sufficient information in relation to your financial objectives, we will assess the

suitability of your existing financial arrangements and research products and services from across the whole of the market that may help you to achieve your objectives. Where appropriate we will also complete a cash flow analysis to test the resilience of the plans that we research for you.

Our recommendations

Our advice will be presented to you in a Suitability Report confirming why our recommendations are suitable for you and how they are relevant to your stated needs and objectives. We will also highlight any potential disadvantages or consequences that you should be aware of. We will also explain in detail all charges associated with our recommendations.

Discretionary Investment Management

Our recommendations may include the appointment of a Discretionary Investment Manager to make investment decisions on your behalf. In some circumstances it may be necessary for us to act as your agent which means that you will have no direct contractual relationship with the Discretionary Investment Manager who will instead treat us as its client. If we recommend this type of arrangement, we will explain the implications to you in full before proceeding.

Implementation

Implementation of our recommendations is entirely at your discretion.

Once you have accepted our recommendations and unless you instruct us otherwise, we will act on your behalf with any Discretionary Investment Managers, Providers and Platforms to arrange for all recommended products to be implemented and registered in your name(s).

We will forward all documents showing ownership of your investments or policies to you as soon as practicable after we receive them. Where several documents relating to a series of transactions is involved, we will normally hold each document until the series is complete and then forward them to you.

11 Our ongoing services

We offer a range of optional ongoing financial planning services to help keep your financial plans on track.

Suitability review

All our ongoing services include an annual assessment of the suitability of your financial plans. This includes:

- ▶ An update of your personal and financial circumstances recorded in our Confidential Financial Review Form.
- ▶ A review of your needs and objectives.
- ▶ A review of your attitude to investment risk and your capacity for loss.
- ▶ A refresh of any cashflow analysis that underpins your financial plan.
- ▶ An assessment of the ongoing suitability of your investment managers, product providers and platforms.
- ▶ A report confirming ongoing suitability or outlining our recommendations should changes to your financial plan be required.
- ▶ Implementation of any recommendations.

Your Choices

Service level 1

This is our high contact service level, offering two planned meetings per year with further meetings available on request.

Service level 2

This is our standard service level, offering one meeting each year.

Service level 3

This is our basic service level, offering one meeting every two years for clients who prefer a light touch service.

Where a bespoke discretionary portfolio solution has been recommended, all our ongoing services include the option of your Discretionary Investment Manager attending your meetings.

Additional Contact

Between your planned meetings, your Adviser will be on hand to answer any questions you may have, either by email, telephone or remote meeting (see table below).

You can compare the three service levels using the table below:

Service	Service Level 1	Service Level 2	Service Level 3
Full financial planning advice service	✓	✓	✓
Meeting with your Independent Financial Adviser	2 per year	1 per year	1 every 2 years
Annual assessment of the suitability of your financial arrangements	✓	✓	✓
Ad hoc meetings as required	✓	At our discretion	x
Telephone support	✓	✓	✓
Email support	✓	✓	✓

We recognise that not all clients require the same level of service, and your requirements may change over time. Should you feel you wish to change your ongoing service level then please speak to your Adviser. This will not affect the status of any of your underlying investments.

In the event of your death, we will undertake a review with your personal estate representatives to ensure any ongoing services are agreed and tailored to suit their revised ongoing needs and objectives. Pending that review, your investments will continue to be managed on the same basis as prior to your death, unless we have previously agreed an alternative approach with you.

12 Other professional services

Investments, non-investment insurance and regulated mortgage contracts that we have arranged for you will not automatically be kept under review by your Adviser unless it has been agreed with you as part of our ongoing services.

We shall, however, be happy to review these upon request at any time in the future.

Should there be a need for other professional services not detailed above then we will happily discuss these with you.

13 How we charge for our services

Value Added Tax (VAT)

Depending on the type of professional services that we provide to you, VAT may be payable on our fees. In such circumstances, we will tell you if you must pay VAT on our fees or for services recommended by us.

Initial services

When we charge fees for the provision of investment advice (including pension advice) this will typically

be a percentage of the amount that you invest, subject to a minimum fee. Fees charged as a percentage of fund values will increase if the fund value increases.

Alternatively, we may agree to calculate our fee on a time taken basis or as a fixed project fee.

If we agree to provide an ad hoc review or other professional service, this will typically be subject to a fee that will be agreed with you before any work commences. Prior to any work commencing we will:

- ▶ Consider if a fee calculated on a time taken basis would be suitable for you.
- ▶ Consider if a fixed fee would be appropriate for any specific work.
- ▶ Provide you with an estimate of how much the total fee is likely to be (if requested).
- ▶ Confirm with you any work we will carry out for you that is not covered by this Client Agreement.
- ▶ Consider if it is appropriate to nominate an upper fee limit that we cannot exceed without alerting you first.
- ▶ Give due consideration to the level of expertise needed to carry out any work required (this is reflected in our typical Adviser hourly rate of £250 per hour).

i Please note that VAT may be payable on our hourly rates. We will let you know in advance whether VAT is payable.

For example, additional work totalling 4 hours would result in a fee invoice of £1,000 plus VAT.

Ongoing services

When we charge fees for the provision of ongoing services, this will be a percentage of the amount invested. Fees charged as a percentage of fund values will increase if the fund value increases.

Where you took out a product before 1st January 2013 the providers of investment and pension contracts may pay ongoing commission (often referred to as “trail” commission) to us on a regular basis, for the duration of the contract.

If we receive trail commission and we are charging you a fee for providing an on-going service, we will deduct the amount of any trail commission from our on-going service fee, except where the trail commission is under £50.00 per year (as the administrative burden would be disproportionate to the amount received).

Your payment options

You can choose whether to pay our fees directly or, if we recommend any new investment or pension products, we may be able to arrange for our fees to be paid by deduction from the amount invested in the product, in which case the product provider will pay an amount equal to our fees to us, on your behalf.

Charges paid via your investments

Where we deduct our fees from your investments this will reduce the amount invested. Where fees may reduce your personal tax thresholds and/or exemption levels, we will discuss and detail this with you where it is likely to occur within any recommendation report.

Settling your adviser charge in a single payment

All fees paid to us directly will require to be settled in full on completion of our work in line with the invoice issued to you.

Interest at 4% may be charged on all sums not paid by the due date stated on any invoice issued.

We do not offer the option of settling your adviser charge by instalments.

Castle's services

If we recommend a Discretionary Investment Manager, Provider or Platform from the Castle panel, by entering into this agreement, you agree that you will pay a fee to Castle for the services that it provides to you.

Castle's fee will be fully disclosed to you as part of the account opening procedure.

Castle's fee is separate to any Vision Independent Financial Planning fees and will be deducted separately alongside any Discretionary Investment Manager, Provider or Platform management fee.

You can decide to opt-out of receiving Castle's services, however in such circumstances you would be charged Vision's standard tariff for any recommended Discretionary Investment Manager, Provider or Platform. Our fees may also need to increase to reflect the additional due diligence work

that we will need to carry out to ensure the suitability of any recommended Discretionary Investment Manager, Provider or Platform.

Non-investment Insurance

When advising on Non-Investment Insurance (Protection) we typically receive commission from the product provider.

Mortgages

When advising on Mortgages, Vision's Mortgage Advisers will issue you with a **Terms of Business about our Mortgage and Insurance services** document that includes the basis on which Vision shall be paid for this work. This will typically be a combination of an adviser charge (payable by you) and a commission that Vision receives from the lender.

14 Our charges

The charges for our services will be agreed directly with you in advance of the services commencing. Information about our charging structure is set out below, together with some examples of how that structure may be applied.

In each case, we will charge an initial fee for the initial service and an ongoing fee for any ongoing services that are provided.

Initial fee

Our initial fee is typically a percentage of the amount of investment or pension upon which our recommendations are based, subject to a minimum fee of £2,000:

Investment amount	% fee
The first £250,000	2%
The next £250,000	1.5%
The next £500,000	1%
Any excess over £1m	0.5%

Some examples are quoted below:

Investment amount	Initial fee
£500,000	£8,750
£250,000	£5,000
£30,000	£2,000

i Initial fees will be agreed with you on an individual basis and will take account of the exact investment amount and may differ depending upon the type and complexity of the services required.

Ongoing fees

Our ongoing fee is typically a percentage of the amount of the investment or pension fund value. We charge an annual fee for our ongoing services of **up to 1%** of the investment or pension fund value

taking account of the amount invested and the nature of the ongoing services provided.

Some examples are as follows:

Investment amount	Annual fee
£500,000	up to £5,000
£250,000	up to £2,500
£30,000	up to £300

Regular funded investments

For Investment or retirement solutions funded by regular contributions our initial fee will be agreed with you on an individual basis.

This would typically be a percentage of the contributions made to any investment or pension in the first 12 months (typically 50%).

Non-investment Business

For non-investment business and advice given on other areas of financial planning such as Protection, Mortgages and other borrowing, Long Term Care Planning and Estate Planning we will discuss and agree the requirement for reviews with you on an individual basis, in line with your needs and objectives.

Remuneration will either be on a commission or agreed fee basis, depending upon the financial planning area involved, and will be fully disclosed to you during the initial discussion (see **10 Our initial services**).

15 Client money

We are not authorised to, and therefore do not, handle client money, including cash.

We will never accept a cheque made out in our name or in the name of Vision (unless it is a cheque in settlement of fees or disbursements for which we have sent you an invoice).

16 Investment risks

-  We will never recommend that you invest in order to time the markets as we believe it is impossible to determine the best time to buy or sell an investment. We believe that investment returns are best achieved by investing over the long term and remaining invested through market crashes. We refer to this as “time in the market” rather than “timing the market”.
-  Because the value of investments can fall as well as rise, you may not get back the full amount invested.
-  Past performance is not a reliable indicator of future results.

-  If there are other risks associated with any product we recommend, these will be explained within the documentation provided as part of the advice process.

17 Conflict management

Conflicts of interest which may be detrimental to you may arise between us and one of our other clients. We will make every effort to identify and prevent such conflicts. Where this is not possible, we will manage and mitigate the conflicts. Where we cannot prevent, manage, or mitigate such conflicts we will disclose details to you. A copy of our **Conflicts of Interest Policy** is available on request.

In accordance with FCA rules, we are prohibited from accepting any payment (commission or other non-monetary benefits) which is likely to conflict with the interests of our clients.

Rathbones’ ownership of both Vision and Castle will in no way influence the independent advice and recommendations given to clients with regard to provision of a suitable product, provider or service.
